WELCOME

What can we say, but welcome to the 2026 Wattlewood Bull Sale that will be staged at the new home for our annual bull sales.

We have had a tremendous year full of success, improvement and advancement. We were ecstatic with the results from the Beef Week On Farm Heifer Challenge where our team of ten heifers placed a creditable third from breeders from across Southern Australia, as we place as much enthesus on our quality females that produce the beautiful bulls that we offer to help take the industry forward.

Congratulations go to Cambridge & Carter after they purchased our donation heifer- Wattlewood Acacia V28 where all the proceeds from this sale went to Cancer Council's Biggest Morning Tea.

For the first time Wattlewood entered the 50th year of the Lardner Steer Trial- Australia's longest running grass feed steer trial where unofficially, the Wattlewood steers had the highest weight for age of the 100 steers.

But our biggest achievement comes in this quality line up of the 2026 Wattlewood Angus Bull Sale bulls.

As always, the bulls have met all their health checks including Semen Tests, Tested P.I. Negative, been vaccinated 7 in 1, Pestiegard, Vibrovax and Rhinogard making them Immune Ready and 'ready to work' with confidence.

We are excited to present 30 top quality bulls that are a very consistent type with plenty of meat in all the right places. We believe we have bulls that will appeal to and suit every astute breeder.

Wattlewood is also bringing back their After- Sale Bull Care, where we will follow up with the purchasers and vaccinate their Wattlewood Bull/s to help maintain their protection. Please see the back of this catalogue for the application to this program.

John and Fiona Glover are excited to welcome you to the 2026 Wattlewood Angus Annual Bull Sale and thank you for your time in viewing our catalogue.

After the sale, we welcome you to join us for nibbles and refreshments.
