Superfine Wool Ewe – GSSM 2026*

Geoff holding Reserve Champion Superfine Wool Ram

AUSFINE is a brand name and registered trademark for use as a commercial vehicle for traditional superfine and fine wool growers, ram breeders and sheep producers to identify, differentiate and promote their product.

International consumer trends are demanding identifiable market brands with the ability to supply the necessary providence for the eco-conscious consumers of today, particularly in the luxury product area.

AUSFINE provides a unique quality recognised market brand to the superfine and fine wool industry globally.

AUSFINE has established a decisive marketing edge in the superfine and fine wool industry by identifying and branding the AUSFINE production, be it wool, ram or sheep, from the general production class.

AUSFINE maintains and enhances premiums in the markets by clearly separating its member's productions from the generic terms, similar identification and general classifications used presently by most in the Australian merino wool, ram and sheep industry.

The AUSFINE brand has become synonymous with a type of wool, a type of ram and a type of sheep that the wool industry readily relates to as being of the highest quality.

A superior product deserves recognition.

To join the Ausfine Wool Company simply:

1) Ask your wool agent for independent advice and to organise the membership

OR

2) Contact Ausfine directly by calling
Scott Carmody on 417 983 050 or
email scottcarmody@bigpond.com
